

# StreamLine™

Option for Marathon's  
Self-Contained Compactor/  
Containers

RJ-250SLSC

RJ-88SLSC

The **StreamLine™** option allows any of Marathon's Self-Contained Compactor/Containers to drain

excess liquid from your container, **reducing net payload weight and significantly reducing hauling costs!**

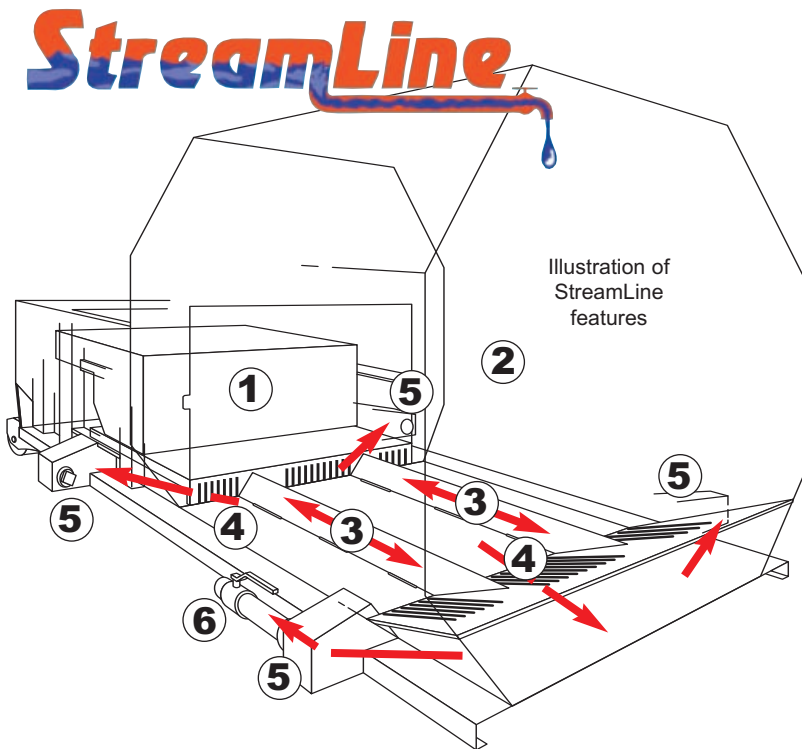

*This Streamline RJ-88SLSC, located at a grocery store, allows liquid from wet waste to be drained off before the unit is hauled to the landfill.*

# How the StreamLine Option Works

As the ram ① pushes the high liquid content waste into the container ②, it squeezes out liquid through normal compaction. Specially designed "passages" ③ on the container floor direct liquids into an internal plumbing system ④. Liquid is then routed to at least one of four large 4" drains ⑤ at each corner of the unit regardless of the pitch of the pad on which the unit is installed. Each unit is factory tested to assure leakproof construction. One ball valve ⑥ comes standard on the unit. Optional features included additional ball valves, hose/piping, pump out tank, pump and others.

## Other Features of Marathon's Self-Contained Compactor/Container:

- ▼ CYCON Life-Xtender®, Cyclic Control System features reliable solid state circuitry that eliminates all pressure and limit switches.
- ▼ Remote Power Unit
- ▼ Curved Bubble Gate for superior compaction ratios and more capacity
- ▼ Marathon's Patented Double Hinge for a even seal without scrubbing and assured liquid retention
- ▼ "P" Seal around the door also aids in liquid retention

## Other available options:

- ▼ Cart dumper systems
- ▼ Ozone Odor Control System
- ▼ Doghouse and chute systems

## Add the StreamLine Option to Any of These Models Listed Below:

Model	Container Capacities	*Charge Box Capacity	Feed Opening	System Pres- Norm.	System Pres- Max.	Force Rate.-Norm	Force Rate.-Max	Motor	Cycle Time	Weight
RJ-88SC	15, 20 & 24 cy.	0.70 cy.	30 1/2"x48"	1,700 psi	2,000 psi	36,600 lbs.	43,100 lbs.	5 hp	44 sec.	9,230 lbs. **
RJ-100SC	15, 20,25, 30, & 34 cy.	1.32 cy.	35"x60"	1,850 psi	2,300 psi	36,300 lbs.	45,200 lbs.	10 hp	37 sec.	11,700 lbs.
RJ-250SC	15, 20,25, 30, 34 & 39 cy.	1.31 cy.	41"x58"	1,850 psi	2,300 psi	39,900 lbs.	49,500 lbs.	10 hp	33 sec.	12,930 lbs. **

\* WASTEC Rating. \*\* Weight for largest capacity unit. Other weights vary according to container capacity. All models can be customized to virtually any width, length or height.
